

Quality Policy

The Managing Director together with the Company's Management Team and its authorised representative(s) will ensure that the Quality Management System (QMS) is appropriate for the Organisation as a whole as well as fulfilling the quality expectations of the Customer and follow the principles as set forth in ISO 9001: 2000.

The policy of the Company will be to ensure continual review and improvement of the QMS thereby ensuring ongoing review of customer satisfaction levels

By means of regular Management Review there is a basis for quantifying the ongoing effectiveness/suitability of the QMS and to establish clear quality objectives aimed at continual improvement of the QMS.

The Managing Director and MT will empower a Management Representative with the authority and responsibility for the ongoing control and management of the QMS. The Management Representative in the form of the Quality Manager will receive the full support of Managing Director and the MT in all their endeavours in ensuring the goals and objectives of the QMS are achieved in full.

Through the Management Review process as well as via the Management Representative the MT will ensure that the organisation as a whole is made fully aware of the ongoing quality objectives of the Company through regular and ongoing communication.

Ian Korny
Managing Director
